Good day Peer Tutors and Tech Mentors,

I hope you're well.

As the July–August payment cycle, covering 21 July to 20 August 2026, draws to a close, we require the submission of supporting evidence of work for payroll verification.

Your [KwantuGo records](#) for the current payment cycle are available for review.

Please take note of the following when reviewing the KwantuGo records:

- Days where no sign-out time was recorded are highlighted in red. These days have been excluded from the current hours calculation.
- Days where a sign-out was recorded after 18:00 are highlighted in orange. These days have also been excluded from the current hours calculation.
- The second tab of the KwantuGo records provides a consolidated view of the total hours recorded on KwantuGo and the corresponding total number of days currently eligible for payment.

If you believe that any day highlighted in red or orange should be credited, please provide the relevant supporting evidence so that the entry can be reviewed before payroll is finalised.

Where KwantuGo was not used to record attendance for work completed during the payment cycle, a valid reason must be provided explaining why you were unable to sign in and/or out on KwantuGo. This explanation is required by IDC for payroll processing. Supporting evidence of the work completed must still be provided for the day concerned.

The KwantuGo records will be updated again on 20 August 2026 to include the final hours logged for the payment cycle.

Every day and set of hours claimed must be supported by evidence that clearly demonstrates the academic or technical support provided during those hours.

Your Evidence of Work submission should include:

- Date the work was completed
- Clear description of the specific activities completed
- Names of the individuals assisted
- Brief description of the academic or technical support provided to each individual or group
- Topics, projects, exercises or technical challenges supported
- Where applicable, details of troubleshooting, code reviews, debugging, technical guidance or academic assistance provided
- Relevant supporting documentation demonstrating the work completed
- Full signature of the Peer Tutor or Tech Mentor
- Full signatures of the individuals assisted as confirmation that the support was provided

Please ensure that the evidence submitted corresponds with the dates and hours being claimed on KwantuGo. A general description of duties without sufficient detail of the actual support provided during the hours claimed may not be sufficient for verification.

All Evidence of Work forms must contain the full signatures of the Peer Tutor or Tech Mentor and the individuals assisted. Initials will not be accepted. Evidence submitted without the required full signatures will be considered incomplete.

Please complete the [Evidence of Work Template](#) and upload the completed form together with any supporting documentation to the [Peer Tutor and Tech Mentor Evidence Drive](#) under your relevant campus folder.

Before uploading your evidence, please create a folder using the following naming convention:

Name_Surname_Role

For example:

- **Thabo_Mokoena_PeerTutor**
- **Ayanda_Ndlovu_TechMentor**

First round submission: **Tuesday, 18 August 2026, COB**

Final submission deadline: **Thursday, 20 August 2026, COB**

We strongly encourage you to submit by Tuesday, 18 August. This will allow us to review the evidence and flag any missing information or amendments while there is still time to make corrections before the final deadline.

NB: If you have not submitted your peer tutor feedback to the portal, please do so urgently.

Please ensure that your final submission accounts for all hours you are claiming for the payment cycle and that any discrepancies between your supporting evidence and KwantuGo records are clearly explained via email and on the evidence submission.

Failure to submit sufficient supporting evidence by the final deadline may place your payment for this cycle at risk, as hours that cannot be verified against evidence of work cannot be submitted for payroll processing.

Thank you for your cooperation and for ensuring that your records and supporting evidence are complete and accurate.

--
Kind regards,

Thulisile Vilakazi
