Student Feedback

Student Role	-Select-
--------------	---------------------------------------

Daily Submission Guidelines

Please complete **all sections** of the daily feedback form before the end of each working day.

When completing your submission:

- Provide **clear and detailed descriptions** of the work you completed throughout the day.
- Include all **student support, workshops, planning, code reviews, meetings, and any other relevant activities**.
- **Upload your GitLab repository link** and ensure your latest commits reflect the work completed.
- Attach **all relevant evidence** of your work, such as workshop resources, presentations, notes, attendance records, screenshots, or any other supporting documentation.
- **Upload evidence even if the work is still in progress**. We are interested in tracking your progress throughout the week, not just the finished product.
- Use the **Additional Information** section to highlight any challenges, student concerns, achievements, or support you may need from the Performance Team.

Peer Tutor Supervisor Daily Submission Guidelines

Please complete the daily feedback form before the end of each working day.

As a Peer Tutor Supervisor, your submission should capture the progress and support provided to your assigned Peer Tutor teams.

When completing your submission, please include:

- Check-ins completed with Peer Tutors and their current progress.

- Confirmation of workshop preparation, content creation, and completion status.
- Review of GitLab updates, commits, and uploaded evidence.
- Any challenges, blockers, or support required from the Performance Team.
- Any important updates regarding Peer Tutor activities, student support, or deliverables.

Please ensure your submission provides an accurate overview of your Peer Tutor teams' progress for the day.

Add your Note here

Bootcamp Assistant Daily Submission Guidelines

Please complete all sections of the daily feedback form before the end of each working day.

When completing your submission:

- Provide clear, accurate, and detailed feedback on the bootcamp participants you supported throughout the day.
- Record student engagement, participation, collaboration, confidence, and overall progress during activities and workshops.
- Highlight any students who may require additional support, as well as those who demonstrated exceptional performance.
- Include any observations from workshops, group activities, mentoring sessions, or one-on-one interactions.
- Attach any relevant supporting evidence where applicable (attendance records, photos, notes, or other documentation).
- Use the **Additional Information** section to capture any concerns, challenges, achievements, or recommendations for the Performance Team.

Your primary goal is to provide comprehensive, objective, and actionable feedback on each bootcamp participant. This information will help us monitor student progress, identify support needs early, and ensure every participant has the best possible bootcamp experience.
